- Advance Educational Attainment within Arizona
- Create New Knowledge
- Impact Arizona
- Compliance
- Real property purchase/sale/lease
- Other:

Statutory/Policy Requirements

- A.R.S.§15-1821 requires an annual report from the Board of Regents on “students under the age of eighteen who had not attained a high school diploma or high school certificate of equivalency and who were enrolled in a university for credit during the period of September of the previous year through August of the current fiscal year.”

Background/History of Previous Board Action

- State statute requires community colleges and universities to report annually the number of high school students taking postsecondary classes.
- The report is in response to a Legislative concern that both high schools and postsecondary institutions were receiving funding for educating the same student.
- Many more high school students take classes from the community colleges than the universities.

EXECUTIVE SUMMARY

Discussion

- Between Fall 2016 and Summer 2017, the universities reported **217** students enrolled who met the criteria.
- The number of high school students taking classes at the universities was virtually unchanged (-4) as compared to the prior academic year report.
- The number of high schools those students attended rose from 103 to 112, an 8 percent increase.
- Classes with the most enrollment were in mathematics, English and foreign languages.

Committee Review and Recommendation

The Academic and Student Affairs Committee reviewed this item at its November 2, 2017 meeting and recommended forwarding the item to the full board for approval.
